Management Executive – Global Data Strategy

STRATEGY & THOUGHT LEADERSHIP • PLATFORM ENABLEMENT • BIG DATA • HADOOP

STREAMING SYSTEMS • INSIGHTS & ANALYTICS • DISTRIBUTED SYSTEMS • ENTERPRISE DATA PLATFORMS

PROFILE

- Substantial background in directing global/enterprise operations, programs, and projects.
- Outstanding skills in managing personnel, strategic plans, vision, scope, technical design, product management, and platform enablement strategy & design.
- Able to effectively coordinate, empower, and guide cross-functional teams in accomplishing objectives and meeting deadlines in a fast-paced, high-growth, and diverse environment.
- Constantly focus on optimizing technology performance, security, and compliance; extremely well-versed in cloud technology, solution architecture, insights, and analytics.
- Highly adept at team-building and leadership, C-level relations, delivering convincing proposals and business cases, and interfacing with stakeholders to facilitate smooth and forward-moving efforts.
- Advised hundreds of data offices across Fortune 1,000 companies globally on best practices and practical implementations regarding data assets.
- Able to leverage technology to streamline business processes and automate critical workflow processes by implementing Big Data analytics and predictive intelligence.

PROFESSIONAL EXPERIENCE

Cloudera / Hortonworks, 2013 – Present
VP, Platform Enablement
- Aligned, mobilized, and directed team in providing strategic and tactical guidance to top customers via software solutions to maximize ROI on data assets.

Vice President – Tiger Team, *2018 – 2019*
Senior Director – Platform Enablement & Strategy, *2016 – 2018*
Sr. Technical Director, A-Team, *2015 – 2016*
- Led engineering field team in building strategic customer relationships and platform enablement.
- Supported customers on large-scale deployment strategies, application and architectural designs, and platform environment health.

Principal Architect – Professional Services, *2013 – 2015*
- Leveraged considerable expertise in Hadoop to design and implement clusters for major customers in finance, telecommunication, retail, and entertainment industries.
- Proficiently steered data collection, aggregation, analysis, and pattern detection.
- Designed and implemented multiple large-scale clusters exceeding 500 nodes.
- Championed integration systems involving 200-400 billion records per day, and built custom interface to lookup information across 15 trillion records in less than 30 seconds.
- Methodically built and tuned analytics solutions across peta-bytes of data on Hadoop platforms.
- Trained and mentored customers in best practices regarding Big Data security and governance.

Equifax, 2011 – 2013
Senior Director – Enterprise Application Architect
- Established and implemented corporate software and development standards.
- Navigated launch of Hadoop (Big Data) technologies into Equifax, successfully resolving long-standing business issues within only two weeks.
- Teamed with international and domestic personnel to standardize SDLC corporate-wide.

McKesson Provider Technologies, 2011
Integration Architect / Consultant
- Formulated and delivered cutting-edge solution for integration of corporate portfolio management system with development project management tools used by various business units.

InterContinental Hotels Group, 2008 – 2011
Technical Consultant
- Directed major migration project involving 680 million reservations and sensitive personal data dating back two years.
- Coordinated with database administrators to determine partitioning strategies to support two years' worth of historical data and 12 months of future data to be collected by system.
- Introduced methods to save thousands of lines of code while enabling development team to react promptly to changing business rules and situations.

Fiserv, 2010 – 2011
Enterprise Architect / Consultant
- Played an integral role in planning, design, and configuration of DR solution.

Macy's, 2009 – 2010
Enterprise & System Architect (Consultant)
- Functioned as SME for Loyalty platforms requiring cohesive efforts with third-party vendors, corporate architects, senior management, and business unit executives to execute critical design decisions and implementation.

McKesson, 2007 – 2008
Integration Architect (Consultant)
- Effectively resolved performance issues within custom plug-in implementation for corporate-wide (5,000+ users) Application Lifecycle Management product, rapidly increasing performance by 15%.

TSYS Loyalty, Division of TSYS, 2004 – 2007
Senior Director – Platform Architect / R&D
- Masterminded platform and implementation of credit card rewards program and trained 12 developers.
- Generated $25M in revenues by acquiring customers such as Capital One - No Hassle Rewards, Washington Mutual, Toronto Dominion, RBCC, CB&T, and Fiserv.

Lancope, 2002 – 2004
Architect / Director
- Shepherded team in devising Enterprise Management Console application for an IDS sensor.

Aelera / ZC Sterling, 1998 – 2002
Senior Development Lead / Systems Architect
- Designed and deployed several multi-tiered applications written in Java and using J2EE.
- Trained personnel on change management, methodically standardized software release process, and created production monitoring system.
- Coordinated implementation of middle-tier architectures such as CORBA, DCOM, and OLE Enterprise.

INDUSTRY CREDENTIALS

Hortonworks Certified Apache Hadoop Administrator

Cloudera Certified Developer for Apache Hadoop

MongoDB for Developers

HDP Certified Administrator

HDP Certified Developer
